Government of India

Vaccination cover against **7** diseases to more than **89** lakh children by **2020**

INDRADHANUSH

- **Ministry of Health and Family Welfare (MOHFW)** has launched Mission INDHRADHANUSH on **25th December 2014** with the aim of expanding immunization coverage to all children across India by year 2020.
- Immunization is the key to protect children from life threatening conditions that are preventable.
- Diseases: measles, polio, pertussis, tetanus, TB, diphtheria, hepatitis B

Thank You
